

BONUS #3 OF 3

AI Script-to-Sales Mini Guide

How to structure VydoraAI scripts so viewers actually buy — CTA placement, script style selection, and the 7 conversion rules that separate channels earning \$50/month from channels earning \$500+/month.

0:00–0:45	HOOK — THE PATTERN INTERRUPT State the specific result or counterintuitive truth immediately. Never start with "Welcome back to my channel." VydoraAI's Monetization style script opens with this automatically. <i>"Most people trying to lose weight are doing cardio first thing in the morning — and it's actually working against them. Here's why, and what to do instead."</i>
0:45–1:30	PROBLEM — AGITATE THE PAIN Name the exact frustration the viewer is experiencing. Be specific — not "it's hard" but "you've tried X and Y and still get Z." This is why they keep watching. <i>"You've spent hours researching, you've started 3 different plans, and every time you make progress you hit the same wall. The issue isn't your willpower."</i>
1:30–2:30	SOLUTION PREVIEW — EARN THEIR TRUST Introduce the mechanism (not the product) that solves the problem. This is why the Authority and Monetization styles outperform Viral for affiliate income — they establish credibility before selling. <i>"There's a metabolic window most people aren't using. I'll show you the exact 12-minute protocol that changes this — no equipment, no gym, just timing."</i>
CTA #1 ~2:30	FIRST AFFILIATE CTA — 40% MARK (CRITICAL) Place the affiliate mention here. Viewers who reach 2:30 in a 6-minute video are engaged — this is your highest-converting moment. VydoraAI's Monetization style places this automatically. Keep it soft: "I'll leave the link below if you want to explore this further." <i>"If you want a done-for-you version of this protocol, the program I used is linked in the description — it's \$37 right now during launch week."</i>
2:30–4:30	PROOF + DEEP DIVE Demonstrate the mechanism works. This is where most AI scripts generate thin content — add one specific data point, case study, or documented result. For faceless channels, use the result from the JV page or documented outcomes from the niche. <i>"In a 2023 study from the NIH — I'll link to it in the description — participants using this protocol lost 2.3× more fat than the control group in the same 8-week period."</i>
4:30–5:30	THE STEP-BY-STEP (WHAT THEY CAME FOR) Deliver the actionable content clearly. Use numbered steps — they increase video completion rate because viewers want to see the list finished. VydoraAI's Scene Engine visualizes each

step as its own scene.

CTA #2
~5:30

CLOSING CTA — HARDER ASK

After delivering value, make the direct offer. Viewers who reach this point have implicitly said "I trust this creator." This CTA can be more direct: "If you want the complete system, check the link below — I negotiated a discount for my viewers."

"Everything I covered today is the free version. The full system is below — it's \$37 during launch and goes up after this week."

VYDORAAI SCRIPT STYLE SELECTION GUIDE

MONETIZATION

Best for: Finance, Software, Business

Structures content around a problem, solution, and offer. Automatically places affiliate CTA at the 40% engagement peak. Use this for your first 3 videos in any niche — it's the safest converter.

AUTHORITY

Best for: Health, Education, Career

Builds credibility before selling. Longer proof sections, data-heavy middle. Lower CTR on first watch but significantly higher return viewer rate — builds the channel's trust faster.

LISTICLE

Best for: Tools, Tips, Product Reviews

"Top 5 X that do Y" structure. Highest search-snippet appearance. Embed affiliate CTA on item #2 and item #5 — viewers who finish listicles are in purchase research mode.

VIRAL

Best for: Shorts, Trend Content

Optimized for shares and recommendations, not search. Use for Shorts only. Weak for affiliate conversion — avoid for long-form monetization channels until you have 5K+ subscribers.

STORY

Best for: Personal Finance, Health Journeys

Narrative arc: problem → attempt → solution → outcome. Highest viewer retention of all styles. Use after establishing credibility (after video 5+). Requires VydoraAI's Character Lock for avatar consistency across scenes.

START HERE

Recommended First Choice

Use **Monetization** style for videos 1–5 in a new niche. Switch to **Authority** once you have viewer comments showing what questions they have. Then add **Listicle** for SEO volume.

THE 7 CTA RULES THAT SEPARATE \$50/MO CHANNELS FROM \$500+/MO CHANNELS

#	RULE	WRONG VERSION	RIGHT VERSION
1	Place first CTA before 45% through video	CTA at 5:30 in a 6-min video	CTA at 2:30 in a 6-min video
2	Name the affiliate link price in the CTA	"Check the link below"	"It's \$37 — link below"
3	Create urgency with a real reason	"Limited time offer"	"Launch price ends May 24"
4	Pin affiliate link as top comment	Link only in description	Pinned comment + description
5	Use a soft CTA first, hard CTA at end	Hard sell at 2:30	"I'll leave it below" at 2:30, direct pitch at 5:30
6	Add a bonus to your affiliate link	Raw affiliate link	"Buy through my link to get [bonus]"
7	Update description after 90 days if offer expires	Dead affiliate link stays live	Replace with evergreen alternative offer

One faceless video in a high-CPM niche: **\$21 YouTube ad revenue** (1,400 views × \$15 CPM) + **\$141 affiliate commission** (3 sales at \$47). The affiliate income was 6.7× the ad revenue. This is only possible when the CTA is placed at the right point in the script — which is exactly what VydoraAI's Monetization style automates.
